Student Image(s)/Student Work

We believe strongly in the need to protect all students and recognize the issues around the publishing of student images, especially on the public internet. We do, however, believe that the showcasing of students and their work and achievements can be an important part of school life and can be a very positive experience for students. It is the policy of the South Shore Regional Board to have parental/guardian/consenting student (if 19 years of age or over) permission before any images of students or student work is used.

During the school year, photographs, video and/or audio may be taken of students as a part of a curricular project, to promote an event in a school, or to showcase student achievement. To promote school events or the achievement of our students, the school and/or School Board may use images of students or student work in various publications, including newsletters, news releases, media and on school or School board web sites that may be viewed over the internet.

I understand that by signing this form that I have been asked my permission to post
