

Town of Bridgewater
60 Pleasant Street
Bridgewater, NS B4V 3X9
Attn: Town Council

Dear Council,

I am writing you in support of funding assistance for the Bridgewater Elementary School Playground and Community Park.

As you are aware from the recent presentation by members of the Playground Committee, there is an immediate need to revitalize this important space for the school and the town.

A commitment to invest in this initiative will benefit the health, wellness and happiness of children and families in Bridgewater. It will give new life to this centrally located, always available play and park space for town residents and visitors. It will make a wonderful impression to prospective families considering living in and schooling their children in Bridgewater.

Outdoor play increases flexibility, develops muscle strength and motor skills. It helps promote healthy social relationships. An improved space with a variety of things to suit individual preferences and abilities will help in decreasing bullying and other negatives that stem from boredom.

Please give this worthy project careful consideration and your support.

Sincerely,

BES Parent
